C. New Vocabulary Review

Teacher will divide class into two teams. Teacher will then sign one of the new vocabulary words. When someone knows the sign, they must raise their hand and wait to be called on before they can say the answer. If they are correct, their team receives one point. If they are able to put that word in a sentence and sign it to the teacher their team receives an additional two points. When using the word in a sentence, they can ask their teammates for help if there is a sign they don't know.
